- VS Code
- Postman
- Socket.io (for real-time apps)
- MySQL
- Postgre SQL
- Figma

Debugging & Testing

- Identifies bugs through systematic testing and troubleshooting techniques.
- Uses browser dev tools and logs to diagnose frontend/backend issues.
- Ensures code reliability through iterative testing and quality checks.

Project Planning

- Organizes tasks and sets clear priorities to ensure timely delivery.
- Breaks projects into milestones for better workflow management.
- Maintains progress tracking and adjusts plans when required.

Team Collaboration

- Works smoothly within team environments to achieve shared goals.

- Communicates clearly and professionally during discussions and meetings.
- Supports teammates by sharing knowledge and assisting when needed.

Problem Solving

- Analyzes complex issues and breaks them into manageable parts.
- Develops effective and efficient solutions using logical thinking.
- Quickly adapts to new challenges and resolves technical problems.

Certifications & Training

- Certificate of Practical Workshop on Web Technologies.
- Certificate of Peace Regulation & Conflict Awareness.

Technical Proficiencies

- Frontend Development – React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.
- Backend Development – Node.js, Express.js, REST APIs, CRUD Operations.
- Database Management – MongoDB, MySQL, Knex.js (Query Builder).
- Version Control & Tools – GitHub, VS Code, Postman.
- Real-Time Communication – Socket.io integration for chat applications.
- UI/UX Skills – Responsive design, and component architecture.
- Deployment & Hosting over Vercel.

Multilingual Communication

- Pashto (Native)
- Urdu (Fluent)
- English (Fluent – written & spoken)

Academic Projects

- **School Management System**

<https://school-management-system-omega-five.vercel.app/>

A role-based web application built using React.js, Node.js, Express, and MySQL. Includes admin, teacher, and student dashboards with authentication and data management.

- **CRUD Operations Management Tool**

https://hussainijaz209.github.io/CRUDE_Operations/index.html

A task management web tool demonstrating Create, Read, Update, and Delete operations using JavaScript, HTML, and CSS.

- **Recipe Website – Discover, Plan, Cook**

https://hussainijaz209.github.io/meal_planning/

A meal planning application featuring recipe search, meal categories, and an easy-to-use interface for daily planning.

- **Movie Trailers Showcase**

<https://hussainijaz209.github.io/Movie-trailers-Showcase/>

A movie browsing app built with responsive UI, presenting film details and trailers.

- **Multiplayer Chess Game**

<https://chess-game-1epq.vercel.app/>

A real-time multiplayer chess game using Express.js, Socket.io, Chess.js, and EJS, allowing users to play chess online with live updates.

- **Custom Portfolio Website**

<https://hassan-portfolio-nine.vercel.app/>

A fully responsive personal portfolio built with modern UI/UX design showcasing skills, experience, and project work.
